

March 27, 2003

Dear Madam or Sir:

I am writing this letter to serve as a professional recommendation of the technology management talents of Harvey Davis. As chair of the Atlanta Life Board Technology Committee, I had a close working relationship with him over the past several years.

Among his accomplishments, Harvey orchestrated the modernization of the Atlanta Life Technology infrastructure including but not limited to systems implementations, conversions, disaster recovery planning, network infrastructure upgrades, and the enterprise migration to Microsoft 2000 server.

Most recently, Harvey coordinated the design and construction of a 1600 sq. ft. state of the art data center with advanced fire suppression and emergency power capabilities.

His commitment, follow through and coordination skills effectively transformed Atlanta Life's infrastructure into that of a Fortune 500 company.

Sincerely,

Roosevelt Giles, President/CEO
