Re: Letter of recommendation for Harvey Davis

To Whom It May Concern:

This letter is to serve as my professional recommendation of Harvey Davis. As an enterprise consultant and CEO of Digicomm Systems, I collaborated with and provided design, engineering, installation and logistical support to Harvey for the telecommunications infrastructure of the new ALIC Investment Advisors facility in 2002.

More recently, I collaborated with Harvey in the design and construction of a \$750,000 state of the art data center for Atlanta Life Financial Group. During this substantial project, Harvey consistently demonstrated the characteristics of a seasoned technology management professional, with a flair for quickly identifying obstacles and effectively resolving any issues in this and all projects we've been involved in together.

He recently demonstrated his gift in problem resolution and negotiation skills by effectively working through municipal code issues with senior officials with the City of Atlanta. His decisiveness, ability to articulate his expectations and "just do it" attitude, helped integrate many service providers into a cohesive and coordinated team.

Sincerely,

Undra Patrick

Enterprise Consultant
